Phone number: +90(538)899-53-61

Date/place of birth=20.07.1997/Manisa

Gmail:turanada4597@gmail.com

I have graduated from Cukurova University as an electrical and electronics engineer. I developed my soft and hard skills through seminars,courses,students exchange programs and students clubs in my formal education life.

I had the opportunity to understand the basics of automation system by doing my internship at the control department of most important power plant of the Manisa industry I also gained valuable work experience, new skills and connections, as well as industry experience and confidence by doing internship in a company that undertakes electrical contracting works of most of factories in Manisa.So I have excellent interpersonal relations and wide technical skills.

I also had a chance to work as an electronic engineer in Hat Elektronik company . In May 2023, I was elected as the company's quality control manager and at the same time as the quality control representative. I organized the procedures for the organization and effective use of the quality management system. I made the definitions of the processes made during production more clear and understandable.

Now I have been working at Murat Ticaret as a project engineer.Murat Ticaret is Volex company which assembly wiring harnesses for automotive sector. I have been providing the new product commissioning process for our customer AGCO\_USA according to our customer's requirements
